

## FLEX VOUCHERS & GIFT CARDS

Looking for a simple way to save your staff money on their everyday spending when your team is largely based in the field or have limited access to the web?

Flex Vouchers and Reloadable Gift Cards are used by some of the UK's best known employers as part of a salary exchange scheme that gives their staff access to savings at a wide range of high street retailers. By committing to purchase a particular Voucher or Card type from The Voucher Shop's extensive range each month (via a salary deduction) **staff can save up to 15% on their household shopping.**

### Example saving

If a member of staff 'flexed' £200 of their net salary, they could receive up to £235 in retail Gift Vouchers dependant on their choice of retailer.

### How does it work?

The Voucher Shop manage and fulfil all orders, despatching Voucher selections directly to the participant within 48 hours and passing on the savings to your staff. If staff opt for a Reloadable Gift Card then funds are available within 24 hours (once activated).

### Key features

-  Minimal administration for HR Teams
-  Secure transactions and reliable customer service
-  Professional unbiased advice on Voucher selection
-  Delivery options including home and workplace

With **savings** like these  
your staff can paint the town red
