

## STAFF SAVINGS SOLUTIONS

In today's competitive employment market it is vital to create the right total reward package for your staff over and above basic salary. Our discount savings schemes help staff to stretch their salary further, supplementing their household income and compensating for the rising cost of living.

With 4 reward mechanisms specifically designed to deliver savings on everyday spending, The Voucher Shop has a solution to suit all organisations, budgets and tastes.

### HIGH STREET SAVINGS

Get your staff interested in your discount scheme before asking them to commit to a monthly salary exchange. With High Street Savings your staff can be given the opportunity to make savings on Gift Cards and Vouchers during specific windows throughout the year and pay by credit or debit card, on a voluntary basis.

### FLEXVOUCHERS

Staff commit to a monthly salary deduction in exchange for a particular Voucher or Gift Card type which is purchased at a discounted rate and dispatched every month. Helping them get more bang for their buck.

### FLEXBANK

Take it online. With FlexBank staff commit to a monthly salary deduction which is allocated to a personal online account. This can be accessed and redeemed at any time, so that staff can purchase reloadable gift cards or vouchers at discounted rates.

### SPREE

Our prepaid card based benefit solution. Staff earn cashback on their spending by using their Spree card at any of our partner retailers. What's more, they can also use their card in over 32 million outlets worldwide. Available as a voluntary benefit or as a salary exchange scheme, Spree cards are easy to use, manageable online, over the phone or on the move via our mobile site.
